PRIMARY EXAMINER
ART UNIT ~~137~~ 1731

The following is an examiner's statement of reasons for allowance: The primary reasons for allowance are that the cited references do not show or reasonably suggest sintering a thin gel plate by placing a ceramic or refractory powder on a substrate, placing the gel plate on the powder and elevating the temperature where by the powder partially fuses to anchor the gel to the support thereby preventing non-uniform stresses in the plate from warping the plate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James Derrington whose telephone number is 703 308-3832. The examiner can normally be reached on 8:30am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 703 308-1164.
